

Outdoor Improvements

Whether your yard can host a full outdoor kitchen and custom swimming pool or you simply want to pump up the volume on your backyard with the addition of a smaller installation like a spa, firepit, or built-in barbecue island, a full-service remodeling and construction company provides homeowners with specialized expertise in achieving a wide range of goals for expanding and improving their outdoor living space.

With the current real estate market, it makes sense to focus your energy and budget on transforming your outdoor living space to increase the value of your home and enhance your lifestyle. Swimming pools and spas are the cornerstone of any backyard paradise. Boring shapes, basic materials, and dull colors are being replaced by more spectacular designs and features. Beach entries, combination pool and spa, custom tiling, water features, and rockwork are only some of the many design choices available. Custom pool covers offer protection for homes with children and animals while keeping cleaning and

maintenance to a minimum. With summer approaching, it's smart to start planning now.

Outdoor entertaining also extends beyond the pool. Built-in barbecue islands, hardscaping, and landscaping are also key elements in outdoor living. Unique features such as a custom firepit warm up outdoor seating areas while adding visual interest to your outdoor living space.

Custom rock features and landscape design create the perfect setting for backyard relaxation on pool decks and patios. Decorative stamped concrete and brickwork bring a touch of elegance outdoors.

For more information on exterior projects as well as interior remodeling such as kitchens, bathrooms, and painting, you can call Petersen & Sons Remodeling, serving the San Fernando Valley, Los Angeles, and Ventura County for 20 years, at 818-905-0583 or toll-free at 800-470-4333.
